

Biological Wastewater Treatment Seminar by

Sponsored by:

Overview

This seminar will present wastewater operations overview, training, troubleshooting and microscopic laboratory techniques necessary to control the wastewater treatment process with an emphasis on process monitoring and troubleshooting. These approaches are equally applicable to domestic, municipalities, agriculture and industrial facilities. Past participants from industries such as dairy, refining, petrochemical, meat packing, wineries, food processing and pulp/paper have been successful in applying these methods to control their processes. Please bring a MLSS sample of your system.

Course Materials

Each attendee will receive complete class notes and a Wastewater Basics Training CD (valued at \$250.00).

Who should attend?

The course is designed for all wastewater professionals, particularly operations personnel, such as operators, engineers and laboratory personnel.

Registration Form

Environmental Leverage® Inc.

June 21st & 22nd, Wed. & Thurs., 2017

8am - 4:30pm

Seminar held at: Tri-City / Kennewick, WA area

Best Western Plus Pasco Inn

2811 North 20th Ave.,

Pasco, Washington, 99301, USA

Phone: 630-906-9791

Total Amount enclosed \$ _____

Course Outline

Wastewater Basic Vocabulary
Wastewater Microbiology
Wastewater Microbiology Troubleshooting
Hands on Microscopic Observation
Troubleshooting Biological Processes
Wastewater Lagoons
Lagoon troubleshooting
Algae and Septicity

Day 2-Course Outline

Wastewater Troubleshooting
Environmental Issues
Ponds and lagoons
Odor control
Process Control Strategies
Beneficial Reuse
Bio Solids Land Application
Winery Wastewater
Dairy Wastewater issues
Environmental Round table
Carbon One & Environmental Leverage Resources

Accreditation Continuing Education Units (CEU) will be available to those who attend, if applicable. Please issue CEU: Yes No

Environmental Wastewater Treatment Issues Seminar

You don't have to struggle with waste water issues again. Just attend this seminar, and you'll never feel overwhelmed again!

Price: You have a choice of a 1 day or the full 2 day seminar. \$190.00 each day / either day. Full 2 Day seminar is \$380.00 with Lunch included.

Date: June 21st & 22nd, Wed. & Thurs., 2017
Time: 8:00a – 4:30p each day & Lunch included.

This seminar will present information on environmental Issues such as air, solids, water and wastewater. Some issues covered will include Lagoon Troubleshooting, Nuisance Algae control, Winery Wastewater, Dairy Operations & Municipalities. Beneficial Reuse and Biosolids Land Applications.

Course Materials

Each attendee will receive complete class notes and a Wastewater Training CD (valued at \$150.00)

Who should attend?

The open discussion course is designed for all wastewater professionals, particularly operations personnel, such as operators, engineers, EHS and laboratory personnel.

The course size is limited so register early.

Accreditation

Continuing Education Units (CEU) will be available.

The Instructor

Tracy Finnegan is an Environmental engineer with Environmental Leverage Inc., a global company that supplies wastewater products, training, audits and consulting services.

www.EnvironmentalLeverage.com

Tracy has taught biological wastewater process control to operators and engineers for over 24 years and performed audits and troubleshooting for ~5-6000 industrial and municipal treatment plants worldwide. Tracy holds a BS degree in Business Chemistry from Northern Illinois University. She is a contributing author in WEFTEC's Book-Wastewater Biology: The Microlife. She has written 12 Wastewater training manuals and CD's. She has helped Governments with environmental issues, regulations, EPA training as well as consulting. She has consulted with Industries, Agriculture and municipalities with existing facilities as well as planning for new facilities or plant upgrades.

Course Location:

Best Western Plus Pasco Inn / Tri-City Area
(Kennewick, WA area)
2811 North 20th Ave.,
Pasco, Washington, 99301, USA
